Behind-the-Scenes: Art Conservation

April 22, 2017 @ 10:30 am - 12:00 pm

Meet conservator Lisa Duncan, who specializes in conserving works on paper. Learn about how TAM works with specialists to care for and conserve prints, drawings, and photographs – from stabilizing fragile papers to removing stains and discoloration. Join us for this rare opportunity to find out how paper conservators extend the life of artworks through a variety of treatment techniques, and see the transformation with "before and after" examples from TAM's permanent collection!

Cost: Free

Exclusively for TAM members.

RSVP to RSVP@TacomaArtMuseum.org
